SUSTAINABILITY

Sustainability is at the core of how we do business. We are proud that **98% of the materials used in our pods are recyclable**. Our acoustic materials are 100% polyester and have been independently tested and proven to be environmentally harmless. As part of our ongoing commitment to a greener future, galvanised steel accounts for 78% of the Solo Pod.

ENERGY SAVING

Internal LED lighting and air ventilation system are activated by the **motion sensor**, and will be automatically turned off after 5 minutes of inactivity.

CLEANER AIR

All pod models are installed with a HEPA filters. It captures airborne particles and releases the cleaned air into the pod. Cleaner air reduces allergic responses.

Users can work confidently knowing that the air quality inside the pods is **cleaner and healthier**.

DISTRACTION-FREE

Each of our acoustic pods are built to give you a calm, quiet space whenever you need it. With **high-quality sound insulation** and **tempered glass doors**, you'll enjoy privacy without feeling closed in.

They have also been tested to ISO 23351-1 standard High Acoustic Rating.

PERSONALISATION

With a curated selection of stylish exterior finishes and the freedom to **personalise your pod** with a variety of fabric options, you can create a look that feels entirely your own.
